

MARVIN MINHAZ

Data Scientist | Python & SQL | IBM Certified

Noida, UP, India • +91 99547 75505 • marvinminhaz@outlook.com • [LinkedIn](#) • [GitHub](#)

PROFILE

Entry level Data Scientist with a strong foundation in Python, SQL, and the full data science lifecycle – EDA, data wrangling, predictive modelling, statistical modelling, and visualization. IBM and Meta Certified with a published open-source Python package on PyPI and a portfolio spanning financial analytics, panel data econometrics, time-series analysis. Proficient in Linux-based systems, reproducible data pipelines, and Git/GitHub version control workflows.

PROJECTS

Methodverse – Python Built-in Methods Reference Engine

- Designed and published a lightweight Python reference engine for built-in methods on PyPI; maintained as an active open-source project with full packaging, versioning and documentation. Demonstrating end to end software engineering from development to deployment and community contribution.

NVIDIA Stock Price Analysis (1999-Present)

- Conducted a 25 + year historical analysis on NVDA stock via Yahoo Finance API; built a data pipeline with Pandas for ingestion/cleaning and Matplotlib for time-series visualization; correlating stock performance with NVIDIA's strategic shift from graphics hardware to AI dominance, extracting actionable financial insights across key market phases.

Trade, Economic Stability & Democracy (1980-2024) – A panel data Analysis

- Investigated empirical relationships between trade dependence, GDP volatility, inflation, and democratic institutions across 44 years of global macroeconomic data via multivariate panel data methods.
- Bridged Political Science, Economics and Data Science – demonstrating advanced data manipulation, hypothesis testing, and statistical inference.

TECHNICAL SKILLS

- Languages and Libraries:** Python (Pandas, NumPy, Matplotlib, Seaborn), SQL, C, HTML/CSS, JavaScript.
- Tools & Platforms:** Git/GitHub, Jupyter Notebooks, Linux (Bash/CLI, Debian, Fedora)
- Other:** Open-source development, Web Scraping & APIs, Shell Scripting.

EDUCATION

- Master of Science – Data Science**
Symbiosis International (Deemed) University | Pursuing
- Bachelor of Arts (Hons) – Political Science | 2023 – 2026**
Indira Gandhi National Open University | Score: 68%
- Class XII | 2019**
Assam Higher Secondary Education Council (AHSEC) | Science | Score: 75%
- Class X | 2016**
Secondary Education Board of Assam | Score: 83%

WORK EXPERIENCE

Co-Founder

Puhor Foundation – Non-Profit Organization | Nagaon, Assam, India

- Co-founded and scaled a non-profit delivering flood relief in Assam and COVID-19 pandemic response.
- Analysed regional operational data to optimize resources and aid distribution across multiple districts.

CERTIFICATIONS

- IBM – Data Science Professional Certificate
- IBM – Databases and SQL for Data Science with Python
- University of Michigan – Python for Everyone
- University of Michigan – Access to Web Data
- Meta – Version Control & Introduction to JavaScript
